

Call for Posters

Poster submission deadline

Friday, 1 September 2023

Conference date

Friday, 17 November 2023, online

Conference schedule

13:00 Conference opening
13:20 Safety session
14:20 Break
14:40 Security session
15:40 Break / Voting
15:50 Award ceremony
16:00 End of conference

Organizer

Cooperation Network for Risk, Safety & Security Studies
<https://www.conris.eu/>

The conference is supported by the Department of Integrated Safety and Security, and Integrated Risk Management of the FH Campus Wien University of Applied Sciences.

About the ESRC 2023

This year's conference "European Students Research Conference for Risk, Safety and Security" will be the 2nd edition after its premiere in 2022. Following the concept of advancing student exchange within Europe, the ESRC 2023 will take place exclusively as a **virtual conference** again.

The Cooperation Network for Risk, Safety & Security Studies (CONRIS) invites **students or graduates** who finish or have already finished their **Bachelor's or Master's theses on safety or security** and want to **present their works** to other students, researchers and professionals around the world.

Take the opportunity to show what your findings can do for science and practice, make valuable contacts and meet people interested in risk, safety, security and research all over the world.

At ESRC 2023 you can **submit scientific posters**.

In addition to the design, the submitted posters will be judged on their originality, methodological quality and results. In the end, six posters (three on safety, three on security) will be selected by the jury members.

If you get shortlisted, you will present your thesis at the **online conference on Friday, 17 November 2023**. There will be two sessions (one on safety, one on security).

There will also be a **Best Poster Award** that will recognize the most outstanding contribution (poster and presentation) per session. In addition, the other finalists will receive **Honorable Mention Prizes**. Each prize includes a cash award (1st place EUR 1000, 2nd place EUR 500, 3rd place EUR 250).

Furthermore, **all submitted posters** will be included **in a virtual exhibition**.

Submission and requirements:

- **Only completed projects** can be submitted.
- Your thesis must deal with one of the main topics: **safety or security**.
- Your thesis must be submitted as a **scientific poster (PDF) in English**.
 - **Deadline: 1 September 2023**
- You can **submit your poster through your university**.
If you are interested, please **contact our contact person at your university**.
- **Send the registration form and poster** to our **contact person** at your university or to **melisa.dagdevir@fh-campuswien.ac.at**.
- You will be **informed on 6 October 2023** whether you have been shortlisted.
- If your poster is selected, you have **10 minutes of presentation time**, followed by a **10 minute Q&A session**.
