## Welcome Note

---

Dear friends and colleagues,

It is our great pleasure to welcome you to the 2025 Annual API meeting!

We have put together an exciting program on the topic of *New therapeutic approaches for Immune Disorders*, ranging from targeted therapies to cell and gene therapies.

The meeting will be held in the beautiful Kloster Nimbschen, a former estate of the Cistercian monastery Marienthron near Leipzig, where Katharina von Bora lived her humble life before marrying Martin Luther. This historic site has been transformed into a charming conference venue.

We would like to thank all sponsors for their generous support.

We hope that Kloster Nimbschen will provide a pleasant and inspiring atmosphere that will encourage collegial interaction, scientific exchange and lively discussions between clinicians and scientists for the benefit of our patients suffering from rare diseases that are not always easy to diagnose or treat.

Kind regards,

Prof. Dr. Catharina Schütz
