

# Title (Cambria 16 pt, bold, single-space, center justified, space after this 16 pt)

H. Musterfrau<sup>1</sup>, N. Mustermann<sup>2</sup>;

<sup>1</sup> Institute 1, Rome (Italy), <sup>2</sup> Institute 2, Berlin (Germany) (Calibri 14 pt, bold, single-space, center justified, space after this 24 pt)

## 1 Introduction (Cambria 14 pt, bold, left-aligned, space before 12 pt and space after this 12 pt, hanging indent 0.5 cm)

Normal formatting: Type/font Calibri, font size 12 pt, justification, single-spaced, automatic syllabification. Literature should be cited as shown at the end and by using square brackets [1, 2]. Headings such as “1 Introduction” can be avoided too.

**The length of the abstract in English is limited to be maximum one page.** (Figure 1).

Figure: embedded with text in row, center justified, space before this 24 pt

**Figure 1:** Legend (font type Calibri, 12 pt, justified, space before 6 pt and after this 24 pt, hanging indent 1.5 cm)

Text Text Text Text Text Text Text Text Text Text Text Text Text Text Text Text Text Text.

**Table 1:** Heading before the table (font type Calibri, font size 12 pt, single-spaced, justified, space before 24 pt and after this 6 pt, hanging indent 1.5 cm)

No.	Tensile strength (MPa)	Yield strength (MPa)	Fracture strain (%)
1	25.3	25.3	10.5
2	100.2	25.8	210.0

Text after a table should have a space before of 24 pt (Table 1) [3, 4].
